

## Cyber Essentials Assessment & Consultancy Service

*Cyber Essentials (CE) and Cyber Essentials Plus (CE+) helps organisations guard against common cyber threats and demonstrate commitment to cyber security.*

As an **accredited Certification Body** we are able to assist public and private sector organisations, big or small in preparing for and passing CE and CE+.

Our goal is to give you as much or as little assistance as you require to ensure you pass CE in an efficient and cost effective manner. Our team will guide your organisation along the CE path utilising their substantial experience within, and knowledge of, the NHS, local government and private sector information assurance.

CE+ compliance is a requirement for all NHS organisations by June 2021 and suppliers to UK Government if they are handling personal or sensitive information.

### *Cyber Essentials Basic:*

- £300<sup>1</sup> +vat
- Self-assessment
- Reviewed by our in-house team.

### *Cyber Essentials Plus:*

- From £1000<sup>2</sup> +vat, dependant upon scope, number of standard builds deployed etc.
- Self-assessment.
- Independently audited and tested by our team.

<sup>1</sup>Cost may increase if assistance and consultancy is required.

<sup>2</sup>Based upon a very small organisation.

## Cyber Essentials – Basic vs Plus

### CE Basic represents:

- A self assessment of your organisation covering:
  - Boundary firewalls and gateways.
  - Secure configuration.
  - User access controls.
  - Malware controls.
  - Patch management.
- Once submitted via our assessment portal we will:
  - Review your answers.
  - Mark each as a pass or fail.
  - Aware an overall pass or fail.
- **Price: £300 + vat**

### CE Plus supplements CE Basic:

- Our team will test your organisation against the CE+ requirements; this will include:
  - Thorough external vulnerability assessment.
  - Internal vulnerability assessment of a sample of in-scope devices.
  - Testing of malware controls in relation to email and internet access.
- **Price: From £1000 + vat.**

CE Basic prices are set by the national Accreditation Bodies. We are able to provide additional assistance to organisations if required.

**Trust us to deliver.**

## *Other Services...*

In addition to Cyber Essentials we also offer a number of other IT services you may be interested in, such as:

**IASME Assessment & Certification:** IASME is an information assurance standard managed by The IASME Consortium that is particularly suitable for small and medium-sized enterprises, think of this as another step toward ISO27001; two levels of certification are available via WMAS:

- Verified Self-Assessment, a self-assessment with a wider question set than CE Basic.
- Audited (IASME Gold), which involves our team independently testing and verifying your organisation is compliant.

**ISO27001 Consultancy:** Our team holds the ISO 27001 Lead Auditor certification and is therefore able to review your compliance with this leading information security standard. This can result in efficiency savings and increased confidence in preparation for / during your actual assessment.

**Penetration Testing:** We offer TIGER Scheme certified penetration testing which attempts to identify and, where safe to do so, exploit vulnerabilities in IT environments and systems. Executive summaries and detailed reports inform you of the work undertaken, issues identified and corrective actions to take.

**Phishing, vPhishing & Social Engineering:** Our team routinely undertake social engineering testing of client staff and sites to identify weakness in staff awareness, security procedures and physical security. Let us pinpoint the issues for you before someone else does!
